PROS

100% Made in Canada

Custom design for 230V magnets

Standard size from 36", 40", 48", 57" and 63" available at all times

TECHNICAL SPECIFICATIONS

OVERVIEW

STANDARD 230V MAGNET

The Powergrip series is ideal for scrap handling, recycling and demolition work. Its design is optimized to obtain the best performance and the best durability, while considering that weight is a very important factor. Depending on the application, several sizes are available, between 30 "and 63". For larger sizes, the Xtremgrip series is available.

- Light weight
- Excellent power-weight ratio
- Optional Claw System available
- Increased performance
- Greater lifting capacity
- Heavy duty chains and cables included

DESIGN

- 100% Made in Canada
- Custom design for 110V and 230V magnets

RENTAL

We offer a short or long term rental service for our entire electromagnet range to allow you to discover our electromagnets. Contact us for rates, several possibilities are available. See the brochure for more information.
