

EXCAVATORS

10 TO 49 TONS - QUEBEC MODELS

OUR MISSION

GRYB wants to fundamentally transform the material handling industry into a customer driven experience, fueled through the needs and challenges of the global market.

Our mission is to develop the right product through the combined expertise of those who build and those who use. Together, we create solutions to support industries that are built to last.

GRYB is the very core of GRYB International. It is through the success of this business that the group went on and expanded into various other brands.

COUPLING SYSTEMS

AHS WEDGE ATTACHMENT

The AHS Coupling System combines innovation and simplicity. Designed and created by GRYB, this coupling system takes the excavation game to a whole-new level.

The compact design of the AHS includes a hydraulic dual-action, double cylinder and a lock valve, reducing the risk of getting stuck.

The angles of the locking blocks eliminate jamming and facilitate hydraulic unlocking. Available in mechanical or hydraulic configurations, which can be easily converted.

BREAKOUT FORCE

VERSATILITY

INNOVATION

THE AHS IS DESIGNED TO INCREASE PRODUCTIVITY WITH A QUICK RETURN ON YOUR INVESTMENT.

- 1** The capacity of putting your attachments in reverse position optimizes your time on site. Work faster near foundations.
- 2** Efficient installation so that you can focus on getting the job done.
- 3** Reduced risk of breakage or leakage.

THE OTHER WAY AROUND

The AHS Coupling System can be used in reverse position, which increases efficiency when working near home foundations. Save time on job sites and maximize output.

PIN GRABBER

The GRYB hydraulic Pin Grabber Coupling System allows you to work with a wide range of attachments. Made of heavy-duty steel, the sliding jaw design allows it to fit into multiple pin centers, permitting the handling of various OEM attachments with ease.

Use this equipment in reverse position with all its compatible attachments.

BREAKOUT FORCE

VERSATILITY

INNOVATION

MAXIMIZE UPTIME WITH THE PIN GRABBER.

BE UP AND RUNNING IN NO TIME!

- 1 Take advantage of the versatility this tool can bring to your machine. Perform different tasks without the need for specialized equipment.
- 2 The ability to switch attachments rapidly significantly increases cost savings. Make your business more profitable by using the pin grabber coupling system.
- 3 Safety first. This system enhances safety and eliminates the risk of your operators and their colleagues getting hurt.

DOUBLE SAFETY FEATURE

The Double safety feature offers two advantages. Firstly, it eliminates the likelihood of an attachment dropping on site. Secondly, it prevents incorrect grasping of the pin attached to the lugs. These benefits serve to safeguard you and your colleagues in the event of any hydraulic malfunctions.

1-2 FRONT AND REAR AXLE LOCK

2 HYDRAULIC LOCK VALVE

QUICK HITCH

The Mechanical Quick Hitch Coupling System optimizes the power of your excavator and simplifies your workflow so that you can save on time. Increase your machine's breakout force and switch attachments with ease.

The strong design of this attachment brings incredible value to your workforce. Transfer attachments between your machines of similar carrier weight. The design of the Quick Hitch allows you to use your attachment to its fullest, enabling you to save time and increase profitability!

AVAILABLE FOR 14 TONS EXCAVATOR AND LESS

BREAKOUT FORCE

VERSATILITY

INNOVATION

INCREASED COMPATIBILITY

Having a quick hitch coupler provides the benefit of increased compatibility, allowing for seamless attachment transfer between same-category excavators. It provides a universal connection point, enabling you to use a wide range of tools and implements with your machinery.

TILTING QUICK COUPLER

Convert your standard bucket into a tilt bucket with our Quick Coupler with adjustable tilt, compatible with all our excavator's equipment from 10 to 40 tons. Designs available include a conventional 40° inclination on each side with cylinders configuration and a maximum inclination of 80°.

BREAKOUT FORCE

COMPACT DESIGN

CUSTOM-MADE TO SUIT YOUR NEEDS

MAXIMIZES THE PERFORMANCE OF YOUR ATTACHMENTS

GTR TILTROTATOR COUPLING SYSTEM

Consider the GTR Tiltrotator as an extension to your machine's arm, providing the operator with the power to work with precision, agility, and efficiency.

The GTR Tiltrotator excels on complicated jobs – it will transform your operations by delivering the highest productivity. Unlock endless possibilities with one of the most performant attachments on the market.

PRODUCTIVITY

Move your excavator less and change tools in seconds for maximum uptime.

ACCURACY

To enhance work efficiency, precision and control are necessary. Our secure coupler mechanism employs hydraulic power for all strenuous lifting and joining tasks.

VERSATILITY

Unlock endless possibilities with the GTR Tiltrotator's ability to rotate 360 degrees and tilt 40 degrees left and right.

PROFITABILITY

There are no limits to what you can achieve, so aim high. With minimal effort and maximum output, save hours of operating time. Depending on operator experience, expect a return on investment in the first season of operation.

Ideal for landscaping, complex jobs, hard-to-reach environments that can't be accessed with a regular attachment, as well as jobs with no space to navigate your excavator around.

BREAKOUT FORCE

VERSATILITY

INNOVATION

40 DEGREES OF TILTING

The GTR dual cylinders allow a movement of up to 40 degrees on every side, greatly increasing the versatility of the attachment.

360 DEGREES OF INFINITE ROTATION

The Tiltrotator offers you infinite possibilities. Turn your attachments in any direction to achieve the impossible.

ADVANCED CONTROL SYSTEM

Control your attachment with unparalleled precision with dual joystick controllers, a graphic touchscreen, optional track and wheel steering as well as multiple user profiles.

OPTIONAL GRIP MODULE

The GRYB grip module takes up very little space under the Tiltrotator and can be easily removed and reattached when needed without affecting the use or connection of the attachment.

3D GRADE CONTROL GATEWAY

Optional machine control integration systems can bring the Tiltrotator's tilt and rotation sensors into your machines 2D/3D technology.

CENTRALIZED LUBRICATION SYSTEM

Reduces number of lubrication points, can be connected to the excavators lubrication system (if available).

WHEEL/TRACK STEERING

Wheel-Track steering systems are also available for momentary control of these functions from the joysticks.

GTR TILTROTATOR

MOUNT TYPES

The GTR Tiltrotators can be mounted differently according to your needs.

HARDLOCK® QUICK COUPLER

Switch attachments in a flash with the Hardlock® Quick Coupler which offers an added level of safety with double-locking devices, standard rear locking, and excentre locking system.

FAST CHANGE COUPLER

With the Fast Change Coupler, stay in your cab at all times. It will bring maximum time savings to your business. The quick-release system can be combined with an FC Tiltrotator, making it easy to connect and disconnect without having to manually attach hoses.

1 SANDWICH METHOD

With the Hardlock® Quick Coupler or Fast Change Coupler

2 DIRECT FIT

BUCKETS

HD - DIGGING BUCKET

Made to handle various small materials in the construction industry.

Optimized angle filling and dumping.

Reversible attachment available.

Side cutter available bolted or welded.

SHD - SUPER HEAVY DUTY BUCKET

Made to handle various small to medium sized materials in the construction industry, such as stones.

With all the features of the Digging Bucket and more:

- Made of high-resistance steel.
- Optional welded heels available.
- Optional edge protection available.

XHD - EXTREME DUTY BUCKET

Made to dig in extreme conditions and handle all kinds of heavy duty materials.

With all the features of the Super Heavy Duty Bucket and more:

- Thicker wear bars underneath the bucket.
- Made with heavy duty teeth.
- Optional outside and inside reinforcements.
- Optional inner bottom lining.

AVAILABLE BUCKET OPTIONS

Several optional parts are available for additional reinforcement.

COMPARISON CHART

	DIGGING BUCKET HD	SUPER HEAVY DUTY BUCKET SHD	EXTREME DUTY BUCKET XHD
- Under and side plates in High Resistance Steel			
1 Wear Bars			Thicker
2 Tooth size	Standard	Standard	Heavy Duty
3 Side Cutters	Welded/Bolt-on	Welded/Bolt-on	Welded/Bolt-on
4 Welded Heels	N/A	Optional	Optional
5 Edge Protection *	N/A	Optional	Optional
6 Outside Reinforcements	N/A	N/A	Optional
7 Inside Reinforcements	N/A	N/A	Optional
8 Inner Bottom Lining	N/A	N/A	Optional
9 Hook			

* Half Harrow + Chocky bar

DITCHING BUCKET

Filling and dumping at an optimized angle.

Maintenance time reduced.

TILT DITCHING BUCKET

Hydraulic cylinders with total protection from debris.

45° tilt on each side.

Hardened chrome-plate axle with greaseable wearing rings.

SKELETON BUCKET WITH TEETH

Ideal for recycling materials.

Two models available: general-purpose bucket and ditching bucket.

Variable bucket tooth spacing.

4 IN 1 BUCKET

Digs, levels, handles and sort.

Combine use of a grapple, the strength of a standard thumb, and the functions of a ditching bucket.

GRAPPLE BUCKET

Increases precision and control.

Maximizes the performance of your attachments.

Increases the productivity and versatility of your machine.

TRAPEZOIDAL BUCKET

Ideal for digging ditches.

Increase productivity with its 45° angles.

RECESSED BUCKET

Provides the same digging power as the original bucket.

Reduces the risk of the bucket possibly damaging the excavator.

SCREENING BUCKET

Ideal for recycling materials.

Sieve opening from 1 to 6 inches are available.

Rotates on both sides.

GRADING BUCKET

WITH MINIMIZED CORNERS

Minimized corners for a better clearance during the Tiltrotator's rotation.

Optimized material selection to lower weight without compromising durability.

Available with a bolt-on cutting edge.

COUPLING SYSTEMS COMPATIBILITY

GTR

DIGGING BUCKET

Optimized material selection to lower weight without compromising durability.

Pre-drilled holes ready for bolt-on side cutters.

Back wear plates made of abrasion-resistant AR500 steel.

Available in multiple teeth configurations.

COUPLING SYSTEMS COMPATIBILITY

GTR

TRENCH BUCKET

Dig deep trenches without the Tiltrotator having to go below the surface level.

Optimized material selection to lower weight without compromising durability.

Back wear plates made of abrasion-resistant AR500 steel.

COUPLING SYSTEMS COMPATIBILITY

GTR

THUMBS

HYDRAULIC THUMB ON STICK AXLE

Choice of two or four profiled tines.

135° rotation.

XHD cylinders included from 10 to 40 tons.

COUPLING SYSTEMS COMPATIBILITY

ALL

PROGRESSIVE HYDRAULIC THUMB

Choice of two or four profiled tines.

More than 180° rotation.

XHD cylinders included from 10 to 40 tons.

COUPLING SYSTEMS COMPATIBILITY

ALL

UNIVERSAL HYDRAULIC THUMB

130° rotation.

Cushion-shock absorbers are included.

Light and compact design.

Two possible length setups.

COUPLING SYSTEMS COMPATIBILITY

ALL

SPECIALTY PRODUCTS

FEMALE LUGS

Compatible with all types of wedge or pin-on attachments.

With or without excess under the quick coupler.

Available in standard or reversible configurations to fit your needs.

FEMALE LUGS WITH TOP PLATE

Compatible with all types of wedge or pin-on attachments.

Custom-made to fit your needs.

REVERSIBLE FEMALE LUGS

Compatible with all wedge couplers.

With or without excess under the wedge coupler.

ROOT RAKE

Multiple configuration available for the spacing between tines.

CONCRETE PULVERIZER

Stronger jaw on the market.

Mounted on a bolt-on interchangeable top plate.

Fastest execution system and the biggest strength ratio on the market.

RIPPER

Offers superior digging force.

Interchangeable bolt-on teeth.

Minimal maintenance is required.

FC ADAPTER PLATE

Flexible and robust.

Mount different tools and attachments.

Designed for the Nordic market.

COUPLING SYSTEMS COMPATIBILITY

GTR

PALLET FORK

Multiple mechanical configuration available.

COUPLING SYSTEMS COMPATIBILITY

GTR

ASPHALT CUTTER

Designed to last.

COUPLING SYSTEMS COMPATIBILITY

GTR

CONSTRUCTION GRAPPLE

Perfect tool to widen the range of operation available with the tiltrotator.

Application areas include heavy lifting, stone laying, sorting, loading of cut-to-length timber, waste wood handling, light demolition etc.

High clamping force.

COUPLING SYSTEMS COMPATIBILITY

GTR

SORTING GRAPPLE

Suited for use in building and construction sites and recycling.

Load retention valve and piston accumulator integrated with the hydraulic system.

Very stable.

Close tip to tip.
